

Understanding...

The True Cost of Breakdowns

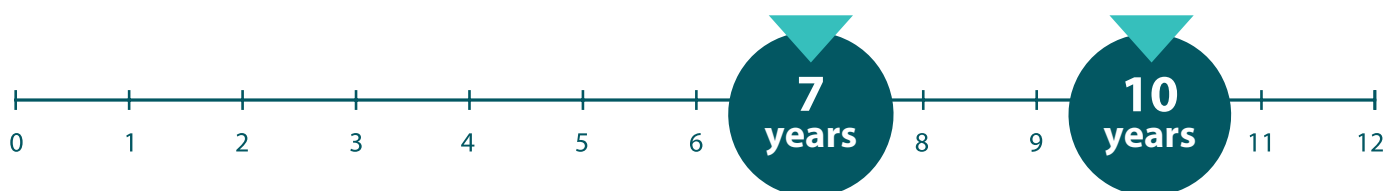

All machines can experience failures, but without proper maintenance, your sluice room solution is likely to break down up to **three times a year on average**.

While it may seem easier and more cost-effective to address issues as they arise, the reality is quite different. Proactive maintenance reduces downtime, minimises disruption, and helps avoid unexpected expenses.

Without regular maintenance the life expectancy of a piece of capital equipment may last less than...

With regular maintenance, the life expectancy can be...

ISSUES RELATED TO BREAKDOWNS

Reduced productivity

Increased downtime

Higher risk of infection

Unplanned call-out charges

All machines can suffer unexpected breakdowns, but the inconvenience and costs are significantly higher without a service contract.

Estimated Breakdown Cost **Without a Service Contract**

£548

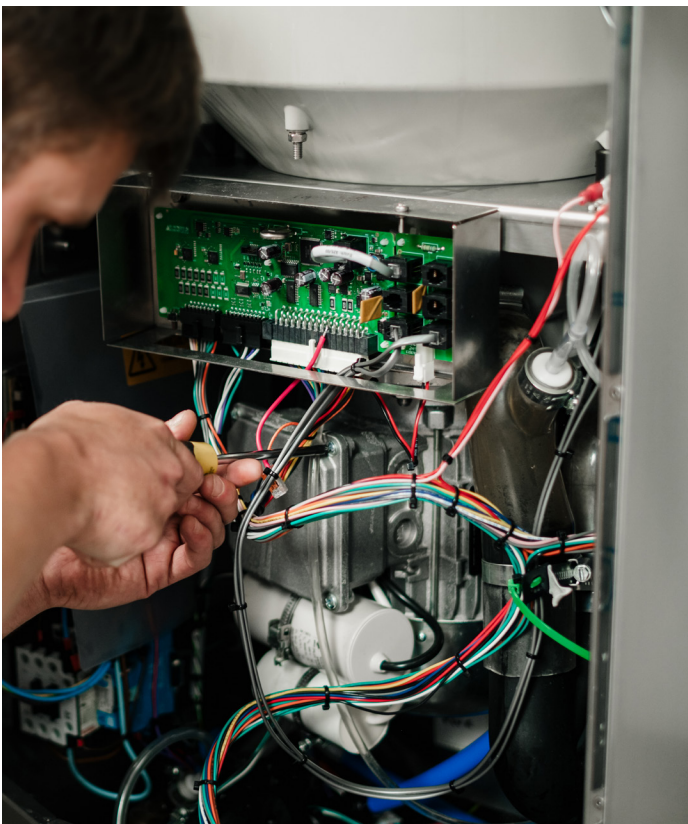

Per visit

Estimated Breakdown Cost **With a Service Contract**

£313

Per visit

Benefits of DDC's Service Package

- ✓ **Reduced Pricing**
On servicing, call outs and spare parts.
- ✓ **Rapid Response**
Fast support when you need it.
- ✓ **Minimised Downtime**
Keep machines running smoothly.
- ✓ **Lifetime Support**
Expert help throughout your equipment's life.
- ✓ **Stress-Free Maintenance**
Avoid disruption and staff downtime.
- ✓ **Expert Planning**
Tailored maintenance schedules.
- ✓ **CQC Compliance**
Stay compliant with regular testing and servicing.
- ✓ **Training Included**
Practical in-service training for your team.
