

Servicing

Maintaining your infection control equipment is crucial to reduce the risk of Healthcare Acquired Infections.

With **DDC's Service Agreements**, your equipment will be kept in peak condition, preventing avoidable breakdowns and ensuring the well-being of patients, residents and clinicians

Our services align with **Regulation 15** of the **Health and Social Care Act**, ensuring your environment remains safe, hygienic, and compliant.

Peace of mind through expert service capability

Introducing **DDC service plans**, designed to deliver exceptional support and maintenance for your equipment.

With Planned Preventative Maintenance, you'll extend the life of your machines, avoid costly breakdowns.

Our service plans give you access to a nationwide team of expert engineers, including 40 dedicated Field Service Engineers, ensuring fast and reliable support wherever and whenever you need it.

We offer a dedicated Customer Services Team and an Account Manager to provide personalised, attentive care tailored to your specific requirements.

Our expertise covers all makes and models of washer disinfectors and pulp macerators allowing us to repair and maintain your equipment to the highest standards.

In line with NHS guidelines, we conduct periodic testing to ensure optimal performance and compliance.

Our service plans also include full stock support for parts, minimising downtime and ensuring your operations run smoothly.

For your convenience, we offer one consolidated invoice, streamlining your billing process and reducing administrative burdens.

Choose **DDC service plans** for reliable, efficient service and peace of mind.

Our services align with **Regulation 15** of the **Health and Social Care Act**, ensuring your environment remains safe, hygienic, and compliant.

Cleanliness: Keep premises and equipment clean to prevent infection and maintain safety.

Maintenance: Regular upkeep ensures facilities and equipment stay safe and functional.

Compliance: All maintenance must meet relevant regulatory standards.

Infection Control: Maintenance supports infection prevention, especially in healthcare.

Equipment Maintenance: Routine servicing keeps equipment safe and working properly.

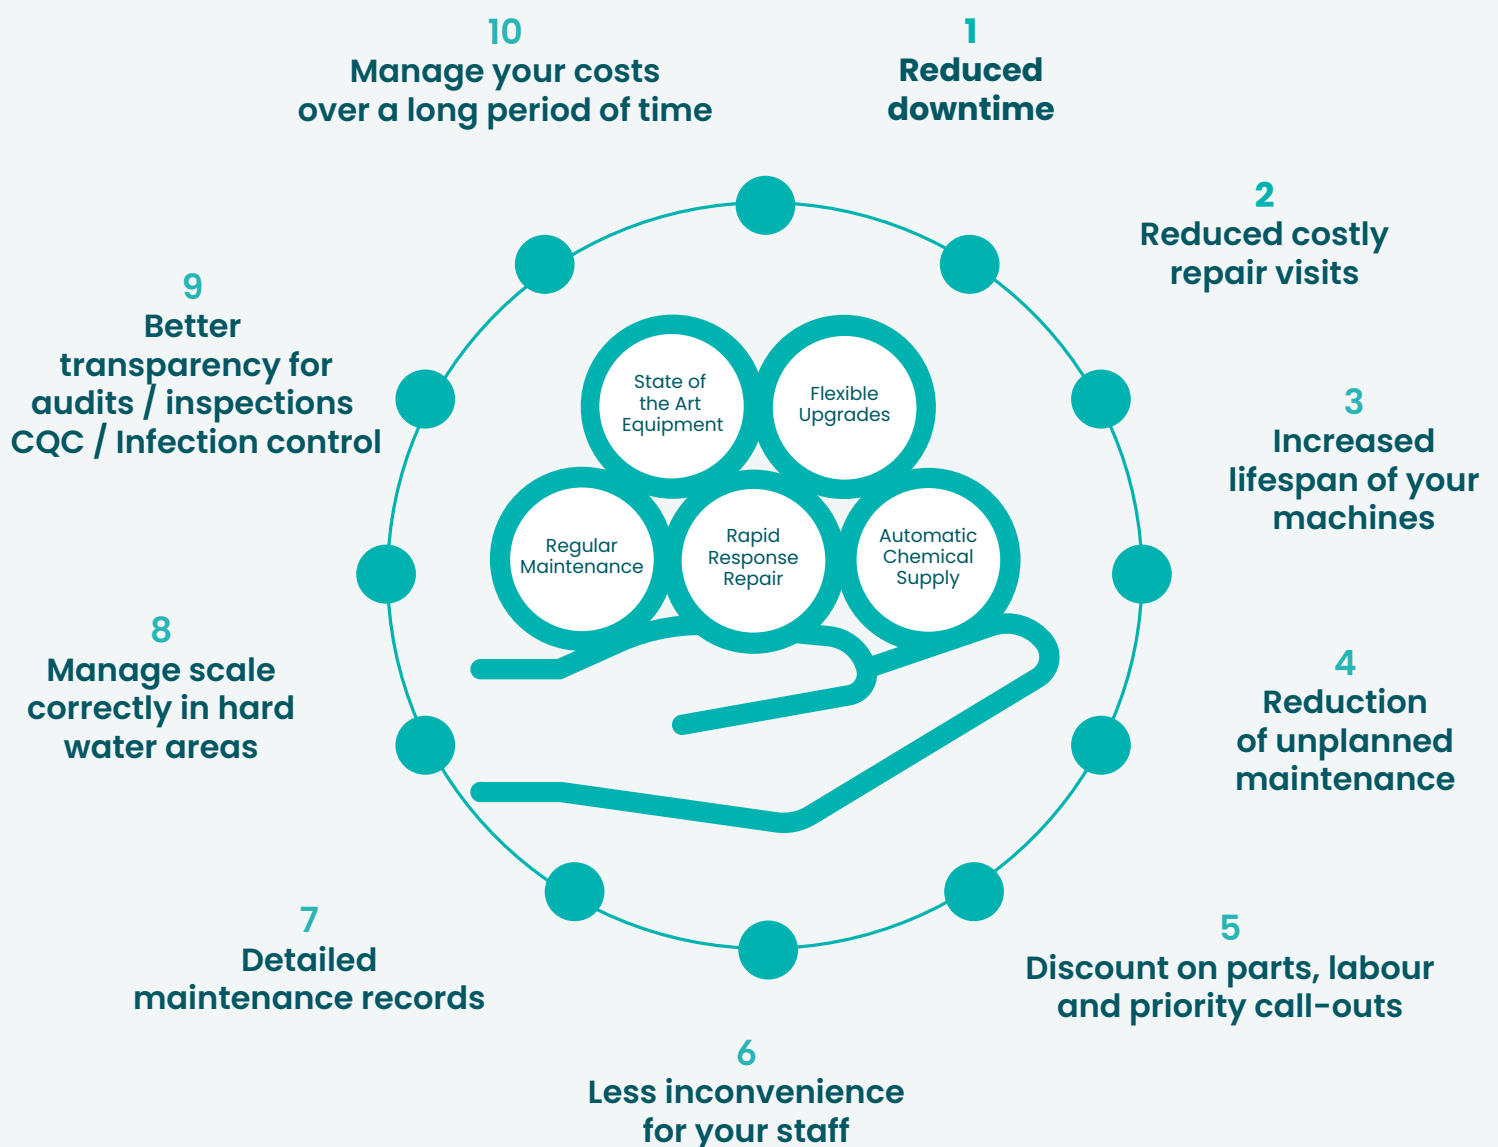

Documentation: Maintain records of all maintenance for accountability and audits.

Service Benefits

Choosing a reliable service plan goes beyond just keeping equipment running. It plays a vital role in improving efficiency, reducing unexpected costs, and supporting compliance. This overview of the Top 10 Service Benefits outlines how proactive maintenance, expert repairs, and tailored support can extend the life of your machines, ease the workload on your staff, and help you stay prepared for inspections.
