

Hygenex Maceratable & Flushable Bed Bath Washcloths

HYGENEX®
CONSUMABLES

What Makes Hygenex® Bed Bath Washcloths Different?

Hygenex® Bed Bath Washcloths are part of our new range of eco-friendly personal hygiene and cleaning wipes – completely maceratable, flushable, dispersible, biodegradable and compostable!

Hygenex® bed bath washcloths are made from 100% non-woven cellulosic material. Soft yet strong, these bed bath washcloths have been developed to deliver exceptional performance whilst offering outstanding environmentally friendly benefits.

The Hygenex® range of wet and dry wipes provide healthcare professionals with a high-quality product which are fully tested and compliant with EDANA & INDA standards of flushability, so they can be disposed of in bedpan washers, macerators, slop hoppers or toilets. What's more, your conscience can be clear knowing that they are made from 100% natural materials which will quickly break down into non-toxic components, causing no harm to the environment – or your plumbing systems!

Designed with personal care in mind, they are ideal for use in hospitals, care homes, nursing homes and domiciliary care.

- **Supplied in packs of 8, one wipe per body area.**
- **No soap, water or towels required.**
- **Suitable for use on all skin types and ages from newborn to the elderly.**
- **Fully flushable and maceratable they can be disposed of in a toilet, macerator or bedpan washer.**
- **Market leading strength and performance**

To put it simply, they are fully compostable – they completely break down and disperse into 100% organic matter when disposed of in bedpan washers, macerators, slop hoppers or toilets.

Whilst many competitor products can claim that they are biodegradable, this simply means that they will eventually break down into smaller pieces by natural processes. In reality what this means is they decompose into microplastics, further polluting our already dangerously damaged natural environment.

Hygenex Bed Bath Washcloths

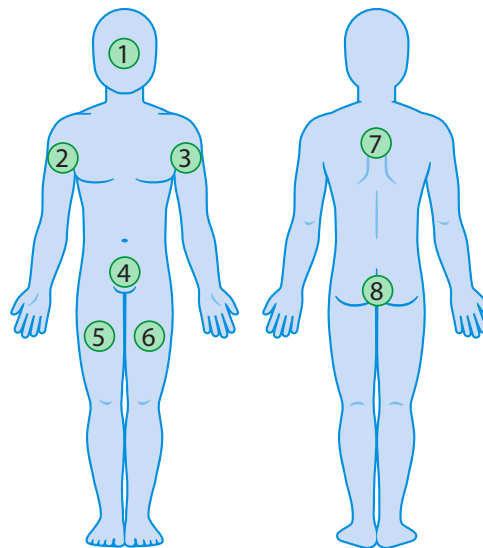

Hygenex Bed Bath Washcloths are skin cleansing wipes for use on hands, body and face. Made from all naturally-derived ingredients, these wipes are suitable for all skin types including sensitive skin.

Instructions for Use

These extra large bed wash cloths are specifically designed for patient bed bathing. No soap, water or towels are required saving time and money, improving both infection prevention and patient care.

- Remove and use one wipe at a time.
- Cleanse the body in the order shown in the diagram, using one wipe per body area.
- Allow skin to dry naturally after cleansing to enable the skin conditioners and moisturisers to work.
- No need to rinse.
- Do not dry skin after use unless patient is cold.
- Used wipes can be disposed of in general waste or flushed away.

- ① Head, neck, chest, stomach
- ② Right arm, then axilla
- ③ Left arm, then axilla
- ④ Genitalia / perineum
- ⑤ Right leg, hip
- ⑥ Left leg, hip
- ⑦ Back, shoulders
- ⑧ Buttocks, cleft, anus

NOTE: Always observe local bed bathing policies

Maceratable

Can be disposed of in medical pulp macerators without causing machine blockages.

Water Dispersible

Begin to disintegrate within a short period of time when placed in water.

Flushable

Can be flushed away directly into the drainage system without causing blockages.

100% Compostable

Completely break down and disperse into 100% organic matter.
