

Hygenex Maceratable & Flushable Wipes

HYGENEX®
CONSUMABLES

Introducing an exciting UK first for DDC Dolphin: our brand-new range of eco-friendly personal hygiene and cleaning wipes – completely maceratable, flushable, dispersible, biodegradable and compostable!

The Hygenex range of wet and dry wipes provide healthcare professionals with a high-quality product which can be disposed of in bedpan washers, macerators, sloop hoppers or toilets. What's more, your conscience can be clear knowing that they are made from 100% natural materials which will quickly break down into non-toxic components, causing no harm to the environment – or your plumbing systems!

What Makes Hygenex Wipes Different?

To put it simply, they are fully compostable – they completely break down and disperse into 100% organic matter when disposed of in bedpan washers, macerators, sloop hoppers or toilets.

Whilst many competitor products can claim that they are biodegradable, this simply means that they will eventually break down into smaller pieces by natural processes. In reality what this means is they decompose into microplastics, further polluting our already dangerously damaged natural environment.

Hygenex wipes are made from 100% non-woven cellulosic material. Soft yet strong, these cleaning wipes have been developed to deliver exceptional performance whilst offering outstanding environmentally friendly benefits. They are fully tested and compliant with EDANA & INDA standards of flushability.

Designed with all personal care and cleaning tasks in mind, they are ideal for use in hospitals, care homes, nursing homes and domiciliary care.

- **Advanced non-woven 100% cellulosic material**
- **Passed all 7 tests for EDANA & INDA standards of flushability**
- **Unique market leading strength and performance**
- **Suitable for use on all areas of the body including intimate areas**
- **Suitable for use on all skin types and ages from newborn to the elderly**

DDC
DOLPHIN

Maceratable

Can be disposed of in medical pulp macerators without causing machine blockages.

Water Dispersible

Begin to disintegrate within a short period of time when placed in water.

Flushable

Can be flushed away directly into the drainage system without causing blockages.

100% Compostable

Completely break down and disperse into 100% organic matter.

Hygenex Dry Wipes

Hygenex dry wipes are all-purpose wipes suitable for general surface and skin cleansing. They are soft when dry, highly absorbent, yet strong and smooth when wet.

Hygenex Wet Wipes

Hygenex wet wipes are skin cleansing wipes for use on hands, body and face. Made from all naturally-derived ingredients, these wipes are suitable for all skin types including sensitive skin.
